“ Dear Jaime and Sara,

I will forever cherish the memories that I have of your mom, one of my vintage best friends forever. We shared more laughs than tears during our teenage years and kept our friendship strong during the tough times we faced. Although our communication wasn't perfect, we were always there for each other. She was a true friend, a rare gift in life.

My sympathy goes out to you. I too, lost my mom, way too young, from breast cancer. May your mom's beautiful and loving spirit be with you whenever you need her.

My deepest condolences,
Patty

“ Jaimie and Sara you know I love/loved your mom like a sister. There are so many childhood memories each one such a blessing and precious to me. Sending my love and prayers to you both and the rest of the family. May you take comfort in knowing she rests in Gods perfect peace

“ I will so miss you, my beautiful Vintage Bestie. You have been in my heart for almost 45 years and even though we haven't physically seen each other in quite a while, whenever we would get in touch it would always seem like not a moment had passed. I remember all the laughter we shared. I remember us being the brunette pair in our foursome of VBFF's. I remember some of our conversations that helped me through some of the toughest times in my life. I remember the Florida trips I used to take to visit you. I will hold onto those memories until we meet again. Rest, my dear friend I love you
